

## CUSICK MONTHLY REPORT

### February 6, 2024

- Last month we ran 15 calls, 3 in Cusick, 1 in Usk, and 8 in the Newport area. We were also dispatched to 3 mutual aid requests by SPOFR, all of which were for structure fires.
- We were approved for a grant through DNR for \$4400 (\$440 is our responsibility) to purchase fire shelters. DNR will pay us \$2,650 (state funds) in advance, and then I will order them. After the balance is paid in full, DNR will reimburse us the remaining \$1,350 (federal funds).
- I drafted an aid agreement with District 2 for EMS calls. This will allow for a greater number of people to be transported to the hospital with a Paramedic in the ambulance. I will advise you when that is finalized.
- We received a military Oshkosh dump truck through the FEPP program for free, and it goes to a vendor next week for conversion into a water tender.
- Our Hummer, also a FEPP vehicle, has been repurposed from a military ambulance to a Water and Ice Rescue response platform. It just got done being worked on for emergency response, and has already been called out for an ice rescue once.
- An Aid Agreement with Kalispel Fire and Rescue is in the process of being signed. This will allow for more Firefighter/EMTs to arrive at the scene in a timelier manner.
- Fire District 4 is no longer the service provider for the City of Newport. That is now the responsibility of South Pend Oreille Fire and Rescue, and is what accounts for the sharp drop in call volume.
- The following table is the breakout of calls for last month:

|                 |                              |                         |         |   |
|-----------------|------------------------------|-------------------------|---------|---|
